

Warbird Healthcare Advisors: Trusted Partners, Proven Results

For more than 20 years, Warbird Healthcare Advisors has been a leader in driving sustainable growth and improving performance in healthcare. We have provided more than 1,500 healthcare partnerships across 49 states, with relationships spanning single-consultancy engagements to multi-year collaborations.

Our seasoned practitioners provide strategic advice, financial and operational improvements and transitional executive leadership solutions. We combine deep industry expertise with practical solutions to help healthcare organizations achieve their financial and operational goals and realize their strategic visions.

Why Warbird is Different

Seasoned Operators, Not Theorists

Unlike traditional consulting firms, we bring skillful practitioners with decades of real-world experience in healthcare leadership and operations.

Rapid, Customized Support

We deliver rapid, high-impact support with operational advisors and transitional leaders who provide tailored solutions that drive measurable results quickly.

Trusted Partners, Proven Results

Warbird doesn't just provide advice; we build partnerships rooted in trust, transparency and results. We build relationships and have repeat clients who know they can rely on us.

Cost-Effective Solutions

Our practitioner-based model ensures our clients receive unparalleled expertise at a competitive price point. By operating with lean, results-driven teams, we deliver exceptional value without sacrificing quality or results.

Mission-Driven Approach

We are deeply committed to improving healthcare by equipping leaders and organizations with the tools, insights and talent they need to succeed. Guided by our passion for meaningful improvement, we align our expertise with our clients' missions to enhance care and strengthen communities.

Warbird's Practice Groups

Affiliations, Mergers, & Acquisitions

From initial strategy and due diligence to post-merger integration, we partner with clients to optimize outcomes, enhance organizational performance and drive long-term success.

CFO Strategic Services

Our seasoned experts, many of whom are experienced healthcare CFOs, provide actionable insights and hands-on support to address financial sustainability, labor and workforce management, revenue cycle optimization and risk mitigation.

Financial Advisory & Debt Management

Leveraging decades of experience and a reputation for delivering objective, high-quality solutions, we serve as trusted partners to hospitals, bondholders and financial stakeholders.

Payer Solutions

Our team of seasoned practitioners brings expertise in payer strategy, contract modeling, reimbursement optimization and claims adjudication, creating tailored solutions that align with organizations' goals.

Performance Improvement & Turnaround

We help healthcare organizations navigate financial, operational and strategic challenges with precision and expertise. Leveraging a team of practitioner-consultants with extensive experience in healthcare, we deliver actionable strategies that drive measurable results.

Physician Enterprise Solutions

With deep expertise in practice management, operational efficiency and financial sustainability, we deliver tailored strategies that optimize workflows, enhance patient access and strengthen physician alignment.

Revenue Cycle Optimization

From addressing underperforming revenue cycle operations to implementing best practices that drive sustainable results, we partner with organizations to ensure financial health – without compromising patient care.

Transitional Leadership Solutions

Our practitioner-driven model delivers C-Suite and senior-level professionals to stabilize and lead your organization during periods of change. Through our national network of proven leaders, we provide rapid, cost-effective and mission-driven solutions tailored to meet your needs.
